

# SILICEA 0.3 – 0.5 – 0.9 – 1.2 – 1.5

*Silica river sands, washed and oven dried for use with various types of resins*

## Product identification

SILICEA is made up of washed and oven-dried silica river sand, available in different mixtures with curved grain sizes, to be used in different applications such as sowing on fresh-on-fresh resin or for the creation of anti-slip protective coatings or damp earth screeds.

## Available mixtures

SILICEA is available in the following mixtures of different grain sizes:

- SILICEA 0.3
- SILICEA 0.5
- SILICEA 0.9
- SILICEA 1.2
- SILICEA 1.5

## Instructions for use

SILICEA can be used in the following ways:

- ❖ Mixed in various types of resins for the creation of single or multi-layer floor coverings
- ❖ Used to make resinous mortars for the creation of damp earth screeds, grouting, repairs of holes and floor joints, creation of fittings.
- ❖ Sowing on resinous layers that are still fresh to give a non-slip finish or to improve the adhesion of any subsequent layers.

To choose the correct mixture to use, refer to the technical data sheets of the products that require the use of SILICEA.

## Colors

Greyish brown

## Packaging

25 Kg bags.
